DICK

Traditionsmarke der Profis

WWW.PURYTEK.COM

1778 : Precious . Elegant . Hard As Steel

This knife series reflects our history like no other. It combines the experiences of the past with the knowledge of the present: The year 1778 is the founding year of the Friedr. Dick company in Esslingen.

Dark Nitro : Extreme . Striking . Strong

Unique items are created from the interaction of the unique blade appearance with its hammered finish and the carbon look as well as the handle made of valuable indestructible oak wood.

1905 : Exclusive . Modern . Unique

Friedr. Dick already had an eye for beautiful design in 1905 when it developed a knife series with solid collars. They also have very sharp quality features: The high-end chrome steel X50CrMoV15 keeps your blade sharp for a long time.

**More Variants available ...

Premiere Plus : Classic . Perfected . Timeless

The knife is the extension of the chef's arm. With the Premier Plus series, your knife works practically by itself. This gives you time not only to concentrate on your craft, but also to give your creativity free rein to create exciting dishes - quality that will accompany you for a lifetime.

**More Variants available ...

Active Cut : Light . Harmonious . Consistent

Our activecut pure series offers you forged knives in professional quality - Every activecut pure knife stands for optimum sharpness, precision and durability. Start with tools that professional chefs rely on.

**More Variants available ...

Vivum : Natural . Powerful . Real

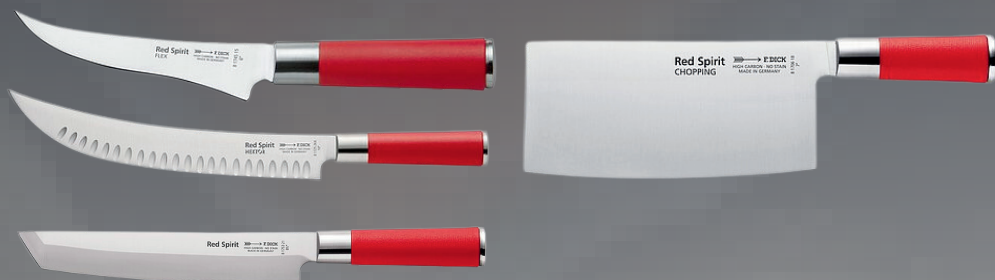

We use a special high-alloy steel for the VIVUM series because the steel quality significantly contributes to a sharp cutting experience. This steel offers excellent cutting performance, exceptional hardness and good corrosion resistance.

**More Variants available ...

Red-Spirit : Passionate . Uncompromising . Extraordinary

The Red Spirit series combines Asian craftsmanship with the virtues of German quality workmanship. The clear but striking design will make your Red Spirit knives a real eye-catcher in your kitchen.

**More Variants available ...

Pink-Spirit : Passionate . Uncompromising . Colorful

"Pink Spirit" combines the usual quality features with a particularly harmoniously shaped handle in brilliant pink - a colour that simply puts you in a good mood and even has positive associations in Feng Shui teachings.

**More Variants available ...

Superior : Classic . Durable . Precise

The knife's sharp, narrow edge helps slice through meat without damaging it, making it ideal for trimming unwanted fat and silver skin. The knife helps enhance the appearance of the meat and contributes to a better texture and flavor in the final dish.

**More Variants available ...

Pure Metal : Pure . Harmonious . Intuitive

The development of the PURE METAL steak and table cutlery embodies our long tradition in the construction and production of high-quality tools and the tough conditions whereby they prove themselves in professional kitchens. It was important for us to create cutlery that equals the quality standards of our chef's knives

**Sold By 4 Pcs/Item

ProDynamic: Professional . Uncomplicated . Honest

Now working in the kitchen is even more fun! You can choose between a wide range of different knife shapes to suit your cutting tasks. Most of the types from the ProDynamic series are available with different handle colours and ensure compliance with HACCP guidelines.

ErgoGrip : Hygienic. Resilient. Proven

Are you looking for a reliable, robust butcher's knife for everyday use?. ErgoGrip knives are absolutely hygienic butcher's knives in top professional quality for fatigue-free work. For this series, we use exclusively high-quality knife alloys (X55CrMo14) and material compositions for the blade and the handle.

ExpertGrip : Easy to grip . Power-saving . Efficient

ExpertGrip 2K knives guarantee cutting that is easy on the joints. The butcher's knives are designed for daily, concentrated boning work for professionals in industry and butcher's shops. A special feature of the ExpertGrip 2K knife series is its unique open handle, suitable for all hand sizes and cutting styles.

MasterGrip : Striking . Variable . Fast

The knives from our MasterGrip series are specially developed for daily, concentrated work in the meat industry. The series includes boning knives with flexible, semi-flexible and rigid blades in two different blade lengths, in curved and straight blade shapes. The safety colours orange and yellow ensure high recognition even in hectic everyday life.

DICKORON family

Generations of professionals keep their knives sharp on the legendary sapphire cut, relying on the fine, even cuts. It delivers the highest level of performance. Technological advances and higher-quality steel alloys make it even better today. With proper care and cleaning, DICKORON will last a lifetime and beyond.

Duo

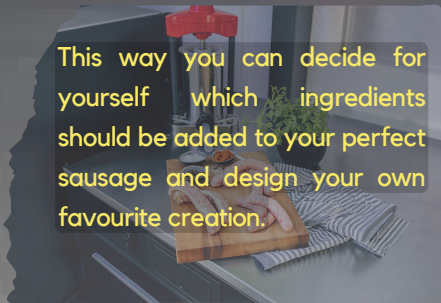

Combi

The DICKORON family consists of DICKORON classic: the classic DICK steel with the legendary sapphire cut, DICK micro: the ultra-fine cut steel, DICK polish: the polished steel, DICK combi: the square steel with dual functions, DICKORON hygienic: with stainless steel blade and sapphire cut, DICK titan: the sharpening steel with the tungsten carbide coating, DICK MULTIRON: Fine cut and standard cut in one and DICK duo: the all-round steel made of ceramic and diamond.

Sausage Fillers

The sausage filler is easy to clean and absolutely hygienic. The bleed valve is also made of plastic and designed in such a way that it can be removed for cleaning with just a gentle press from above.

This way you can decide for yourself which ingredients should be added to your perfect sausage and design your own favourite creation.

ProDynamic Spatulas

These little helpers can be used for turning meat and vegetables, for spreading on cakes as well as for decorating or serving.
